Specialized
Bubble**

Dual Laminated Sheets

This product has a double layer of plastic sheeting over the bubble thus offering a robust smooth finish.

Specification:

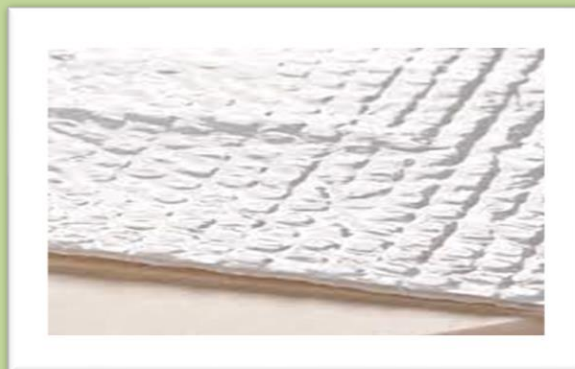

- ❖ Low Density Polyethylene (LDPE) laminated with additional layer of plastic

Dual Laminated Bags

Dual laminate bags or pouches offer additional protection for your smaller items like CD's and DVD's. The bags are extremely effective for glassware, crockery and mirrors.

The bags can be custom manufactured according to your specific requirements

Bubble Mats

Our Bubble mats are a range of bubble wrap sheets which are predominantly used for the packing of fruit transported to both local and international markets.

The Bubble Mats are available in standard sizes; however, we are able to manufacture according to your specific requirements.

The Bubble mats are available as either clear or green.

Specification:

- ❖ 300mm x 460mm
- ❖ 280mm x 375mm
- ❖ 580mm x 400mm

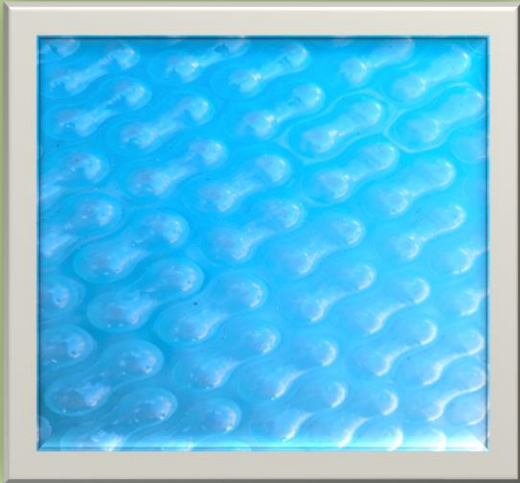

Aqua Dome

The Aqua Dome have been created with the environment in mind!

Designed to both prevent evaporation and aid in temperature regulation of the water, the Aqua Dome also provides the added benefit of preventing leaves, grass and other debris from blocking the pool filtration system.

SAVE WATER

- ✓ Conserves water by up to 40%.
- ✓ Reduces chemical consumptions by 40% .
- ✓ Keeps dust, dirt and debris out of the water.
 - ✓ Keeps water warmer.

Specification:

- ❖ Low Density Polyethylene (LDPE) mixed with UV stabilisers and additives
- ❖ Available in blue colouring
- ❖ Roll weight : \pm 7 kg

Dimensions:

- ❖ 1250mm x 30m / 40m
- ❖ 400 Micron
- ❖ 10mm bubble

D120 Bubble

The D120 bubble is made from a 100% food grade polyethylene to provide product protection & freshness, with superior air cushioning. No additives or recycled materials is added to our product. Colorant may be added but is organic and food safe.

The D120 bubble is made from a low-density polyethylene (50/50), which is chemically unreactive and is generally regarded as being biologically inert.

Specification:

- ❖ Bubble Width : 25mm
- ❖ Bubble Height : 40mm
- ❖ Roll Colour : Clear
- ❖ Roll Weight : +/- 7kg

Standard Roll Size:

- ❖ 1250mm x 40m

Single Sided Kraft

The single sided kraft is produced by laminating brown paper to our standard premium bubble wrap.

This product is best used for the packing and transportation of both artwork and wooden furniture, where maintaining a dry environment is of the highest importance.

Specification:

- ❖ +/-14kg
- ❖ Low Density Polyethylene (LDPE)
- ❖ Laminated to 50gsm poly coated Kraft paper

Standard Roll Size:

- ❖ 1250mm x 82m

Double Sided Kraft

The double sided kraft is regarded as the older brother of its' single sided kraft-counterpart, as it has been designed to be both stronger and more durable.

Specification:

- ❖ +/-20kg
- ❖ Low Density Polyethylene (LDPE)
- ❖ Laminated to 50gsm poly coated Kraft paper
- ❖ Heavy Duty Double Sided Kraft

Standard Roll Size:

- ❖ 1250mm x 82m

Single Sided Heavy Duty Cushion Kraft

The single sided heavy-duty cushion kraft has been designed to be more robust than the normal single sided.

Specification:

- ❖ +/-24kg
- ❖ Low Density Polyethylene (LDPE)
- ❖ Laminated to 50gsm poly coated Kraft paper

Standard Roll Size:

- ❖ 1250mm x 82m

Anti-static Bubble

The anti-static bubble is manufactured by mixing antistatic ingredients during the process of making standard bubble. This product is available in a standard roll. The product is used for highly sensitive items like electronic, cellular and computers.

Specification:

- ❖ Average : 50 microns
- ❖ 10mm bubble
- ❖ Roll weight : \pm 7 kg
- ❖ LDPE mixed with antistatic additives
- ❖ Anti-static bubble wrap pouches manufactured on request (minimum order may apply)

Standard Roll Size:

- ❖ 1250mm x 100m

Insulation Bubble

The insulation bubble is made by laminating aluminum foil to either our standard bubble wrap or the D120 bubble wrap, and has been developed to serve two purposes – protect and insulate.

This product has proven to be highly effective when maintaining the overall quality of fresh food produce is an absolute necessity.

Standard Roll Size:

- ❖ 1250mm x 40m

Bubblethene

The Bubblethene is made by laminating airothene the standard bubble wrap.

This product is best used for the packing and transportation of both valuable items, where maintaining a dry and extra protective environment is of the highest importance.

Specification:

- ❖ 50m or 100m Rolls
- ❖ Airothene thickness from 1mm to 10mm

Standard Roll Size:

- ❖ 1250mm x 40m
